

Each team has 5 minutes to present, with a hard cut off. There is then 2 minutes of discussion and questions with the judges.

Teams will be evaluated based on six categories, each worth five points, for a total of 30 points.

## Categories

### 1. Problem Identification and Clarity

- Does the team articulate a clear and focused 'pain point' they wish to solve?
- Does the 'pain point' relate to the case?
- Have they identified key stakeholders?
- Does the team demonstrate a clear understanding of the complexities involved?

### 2. Innovation

- Does the idea/solution directly address the 'pain point' the team wishes to address?
- Is the idea/solution novel? Would it improve patient outcomes over the existing options?
- Does the team provide a convincing rationale about why their solution will work?
- How feasible is the implementation of this innovation?
- Did the team consider the user experience of their innovation?

### 3. Business Model, Market Analysis, Launch Strategy

- Has the team communicated a sustainable business model?
- Has the team discussed competitors in the space and the market opportunity?
- Did the team share how they plan to launch their idea? Beachhead market?

### 4. Validation of Idea

- Did the team experimentation/prototype test their idea or create an MVP?
- Can the product the team presented evolve and grow into something scalable that will impact lives?

### 5. Presentation

- Was the presentation clear and well organized? Was it easy to follow?
- Did they communicate all of their key points within the allotted time?
- How did the team respond to your questions?
- Does the team have the background, skill, or expertise to execute this idea?

### 6. Inspiration

- How **disappointed** would you be if this solution never came to fruition?
- 5 = Very Disappointed
- 3 = Vaguely Disappointed
- 1 = Would Not Care
